

[SPECIFICATION]

■ CRANE Speci		KATO FULLY HYDRAULIC ALL TERRAIN CRANE	■CARRIER Spe		KATO	
Model		KA-3000RX	Model		KA6360	
Maximum lifting capacity		300ton×2.5m	Carrier Specification (Only carrier)			
Boom length	,,	14.4 m — 55.0m (5 section)	Maximum travel		• •	
SL jib length		10.85m — 35.0m (4 section)	Grade ability (ta		0.60 (computed at G.V.W. = 43,900kg)	
Heavy lift jib length		13m • 22m • 31m • 40m • 47m • 54m (6 section)			11.6m	
Hoisting Main		High-speed: 135m / min. (at 3rd layer) Low-speed: 80m / min. (at 3rd layer)			s (Only carrier)	
ine speed	winch	Thigh speed . 100117 min. (at old layer) 20w speed . 00117 min. (at old layer)	Overall length	11101101011	15,140mm	
(winch up)	Auxiliary winch	High-speed: 135m / min. (at 3rd layer) Low-speed: 80m / min. (at 3rd layer)	Overall width Overall height Wheel base		2,990mm	
	Main				3.200mm	
Hoisting hook	winch	(Parts of line; 28): 5.7m / min. (at 3rd layer) (Parts of line; 1): 135m / min. (at 3rd layer)			3,200+1,650+1,730+1,820+1,650=10,050mm	
speed (winch up)	Auxiliary			Front	2,500mm	
	winch	•	Treads	Rear	2,500mm	
Boom derrickin		-1.0° — 85°	Gross vehicle w	eight	43,940kg	
Boom derrickin	~	105s / -1.0° — 85°	Front axle		17,780kg (1st and 2nd Axles)	
Boom extendin	T .	40.6m / 260s	Rear axle		26,160kg (3 rd , 4 th 5 th and 6 th Axles)	
Slewing speed	High	1.4min ⁻¹	General di	mension	s (Fully equipped)	
Coood / Time	Low	0.7min ⁻¹	Overall length		17,740mm	
Speed / Time		Subject to no load	Overall width		2,990mm	
●Equipment and str			Overall height		4,100mm	
Winch system		Driven by axial plunger type hoisting motor through planetary gear reduction. Controlled independently by 2-speed (high/low) selection	●Engine			
Main & Auxiliar	y winches	type respective operating lever. Equipped with automatic brake.	Maker		Mercedes-Benz	
Counterweight		105ton, 93ton, 81ton, 69ton, 51ton, 41ton, 31ton, 21ton, 11ton,	Model		OM502LA (EURO MOT 3B)	
Journal weight		Hydraulic removal system	Type		4 cycle, 8 cylinders, water cooled, direct Injection turbo-charged	
	Туре	Hydraulic H-beam type (2section) with side support			diesel engine with intercooling	
Outriggers		9,400mm (Fully extended)	Piston displacement		15.927L	
	Extension width	8,400mm (Intermediately extended)	Max. power		405kW at 1,800min ⁻¹	
JJ		7,400mm (Intermediately extended)	Max. torque		2,600N·m at 1,080min ⁻¹	
		6,400mm (Intermediately extended)	Torque converter		Engine mounted 3 elements 1 stage (with lock up clutch)	
		5,400mm (Minimum extended)	Transmission		Remote mounted full automatic 5 forward & 1 reverse speed	
Wire rope for hoisting	Main winch	Diameter: 24mm×Length: 400m	Transmission		All axles steered	
	Auxiliary		Axles		1st, 2nd, 5th and 6th axles driven and have planetary gears reducti	
	winch	Diameter: 24mm×Length: 400m	Axies		and differential lock	
● Engine					Inter-axle differential lock on 5 th axle	
Maker		Mercedes-Benz	Suspension		Hydro-pneumatic suspension Hydraulic locking device with suspension cylinder	
Model		OM906LA (Stage 3A)		Service	2 circuit brake 12 wheels servo-air brake, all axles are equipped	
		cycle, 6 cylinders, water cooled, direct injection turbo-charged		brake	with disc brakes	
Туре		diesel engine with intercooling	Brake system	Parking	Spring applied, electrically air released parking brake	
Piston displacement		6.37L	Diake		(2 nd , 3 rd , 4 th 5 th and 6 th Axles)	
Max. power		205kW at 2200min ⁻¹		Auxiliary brake	Engine brake (Compression brake), Exhaust brake, Hydraulic retarder	
Max. torque		1100N·m at 1200min ⁻¹		Diake	Semi-integral hydraulic power steering of front three axles and	
Electric system	1	24V	Steering		automatic steering of the 4 th , 5 th and 6 th axles	
Batteries		(12V-120AH)×2	Tire size		12 tires, 445 / 95 R25 177E ROAD	
Fuel tank capacity		305L	Electric system		24V	
Hydraulic system			Batteries		(12V-150AH)×2	
Oil pump		Double variable axial plunger pump and	Fuel tank capacity		500L	
		Swash plate type variable piston pump and Gear pump	Driver's cab		All steel welded construction, 2 persons	
Hydraulic motor	Hoisting motor	Variable axial plunger type	●Safety devices			
	Slewing				Emergency steering device, Engine over speed alarm,	
	motor	Axial plunger type			Three-point seat belt (Driver), Suspension lock,	
Control valve		Double acting with integral check and relief valves			Electric adjustable side mirrors, Warning reflector, Engine management & warning system,	
Cylinder		Double acting type			Transmission management & warning system,	
Oil reservoir capacity		2060L			Radiator coolant level warning device, Low air warning device,	
Safety de	vices				Brake light / parking light disconnection warning device, Rear view camera, Brake wear indicator	
-		ACS (Automatic Crane System with voice alarm), Working range limit mode, Outrigger status detector,	●Standard e	nuinmer		
		Boom derricking / telescoping holding valve, Overhoist prevention device, Winch holding valve,	- Standard 6	-quipi i iei	Adjustable steering wheel, Air conditioner, Power Window,	
		Automatic winch brake, Winch drum roller, Outrigger lock pins, Slewing lock, Slewing brake,			Adjustable suspension seat, Tachograph, Sun visor,	
		Hydraulic safety valves. Side mirror, winch drim furning indication device.			Centralized lubricating system, Air dryer, AM/FM Radio,	
		Hydraulic safety valves, Side mirror, Winch drum turning indication device, Engine oil pressure warning device, Battery charge warning device,			Tanda a la alla (fanat and	
		Engine oil pressure warning device, Battery charge warning device, Coolant temperature warning device, Coolant level warning device, Fuel level warning device,			Towing hook (front and rear, eye type), Discharge head lamp,	
		Engine oil pressure warning device, Battery charge warning device, Coolant temperature warning device, Coolant level warning device, Fuel level warning device, Hydraulic oil return filter warning device, Hydraulic oil temperature warning device,	Ontional	quinmos	Towing hook (front and rear, eye type), Discharge head lamp, Radio controller for outrigger control	
		Engine oil pressure warning device, Battery charge warning device, Coolant temperature warning device, Coolant level warning device, Fuel level warning device,	●Optional e	quipmen	Towing hook (front and rear, eye type), Discharge head lamp, Radio controller for outrigger control is	
●Operator's	s cab	Engine oil pressure warning device, Battery charge warning device, Coolant temperature warning device, Coolant level warning device, Tuel level warning device, Hydraulic oil return filter warning device, Hydraulic oil temperature warning device, ACS outside Indicator, Stanchion on boom, Stanchion on counterweight, Stewing warning lamp,			Towing hook (front and rear, eye type), Discharge head lamp, Radio controller for outrigger control ts Air heater	
●Operator's	s cab	Engine oil pressure warning device, Battery charge warning device, Coolant temperature warning device, Coolant level warning device, Tuel level warning device, Hydraulic oil return filter warning device, Hydraulic oil temperature warning device, ACS outside Indicator, Stanchion on boom, Stanchion on counterweight, Stewing warning lamp,	*Note: Destination	n areas w	Towing hook (front and rear, eye type), Discharge head lamp, Radio controller for outrigger control ts Air heater here radio controllers can be used are limited by the Radio Ac	
●Operator's	s cab	Engine oil pressure warning device, Battery charge warning device, Coolant temperature warning device, Coolant level warning device, Fuel level warning device, Hydraulic oil return filter warning device, Hydraulic oil temperature warning device, ACS outside indicator, Stanchion on boom, Stanchion on counterweight, Slewing warning lamp, Outrigger reaction force indication device All steel welded construction, 1 person, Rubber mounted, Tiltable (approx.15°), Air conditioner, Accessory socket (24V), USB socket (output 5V-2.4A.×2),	*Note: Destination	n areas w	Towing hook (front and rear, eye type), Discharge head lamp, Radio controller for outrigger control ts Air heater	
●Operator's	s cab	Engine oil pressure warning device, Battery charge warning device, Codant temperature warning device, Coolant level warning device, Fuel level warning device, Hydraulic oil return filter warning device, Hydraulic oil return filter warning device, ACS outside indicator, Stanchion on boom, Stanchion on counterweight, Slewing warning lamp, Outrigger reaction force indication device All steel welded construction, 1 person, Rubber mounted, Tiltable (approx.15°), Air conditioner, Accessory socket (24V), USB socket (output 5V-2.4A×2), Front windscreen wiper & washer, Roof window wiper & washer, Access step light,	*Note: Destination	n areas w	Towing hook (front and rear, eye type), Discharge head lamp, Radio controller for outrigger control ts Air heater here radio controllers can be used are limited by the Radio Ac	
●Operator's	s cab	Engine oil pressure warning device, Battery charge warning device, Fuel level warning device, Coolant temperature warning device, Coolant temperature warning device, Hydraulic oil return filter warning device, Hydraulic oil return filter warning device, Hydraulic oil emperature warning device, ACS outside indicator, Stanchion on boom, Stanchion on counterweight, Slewing warning lamp, Outrigger reaction force indication device All steel welded construction, 1 person, Rubber mounted, Tiltable (approx.15°), Air conditioner, Accessory socket (24V), USB socket (output 5V-2.4A×2), Front windscreen wiper & washer, Access step light, AMFM Radio, Floor mat, Foot lamp, Power Window (external closing switch),	*Note: Destination	n areas w	Towing hook (front and rear, eye type), Discharge head lamp, Radio controller for outrigger control ts Air heater here radio controllers can be used are limited by the Radio Ac	
		Engine oil pressure warning device, Battery charge warning device, Fuel level warning device, Coolant temperature warning device, Coolant temperature warning device, Hydraulic oil return filter warning device, Hydraulic oil return filter warning device, Hydraulic oil return filter warning device, ACS outside indicator, Stanchion on boom, Stanchion on counterweight, Slewing warning lamp, Outrigger reaction force indication device All steel welded construction, 1 person, Rubber mounted, Tiltable (approx.15°), Air conditioner, Accessory socket (24V), USB socket (output 5V-2.4A×2), Front windscreen upper & washer, Roof window wiper & washer, Access step light, AMFM Radio, Floor mat, Foot lamp, Power Window (external closing switch), Sun visor, Fire extinguisher	*Note: Destination	n areas w	Towing hook (front and rear, eye type), Discharge head lamp, Radio controller for outrigger control ts Air heater here radio controllers can be used are limited by the Radio Ac	
		Engine oil pressure warning device, Battery charge warning device, Fuel level warning device, Coolant temperature warning device, Coolant temperature warning device, Hydraulic oil return filter warning device, Hydraulic oil return filter warning device, Hydraulic oil return filter warning device, ACS outside indicator, Stanchion on boom, Stanchion on counterweight, Slewing warning lamp, Outrigger reaction force indication device All steel welded construction, 1 person, Rubber mounted, Tilitable (approx.15°), Air conditioner, Accessory socket (24V), USB socket (output 5V-2.4A×2), Front windscreen wiper & washer, Roof window wiper & washer, Access step light, AMFM Radio, Floor mat, Foot lamp, Power Window (external dosing switch), Sun visor, Fire extinguisher	*Note: Destination	n areas w	Towing hook (front and rear, eye type), Discharge head lamp, Radio controller for outrigger control ts Air heater here radio controllers can be used are limited by the Radio Ac	
		Engine oil pressure warning device, Battery charge warning device, Fuel level warning device, Coolant temperature warning device, Coolant level warning device, Hydraulic oil return filter warning device, Hydraulic oil etter warning device, ACS outside indicator, Stanchion on boom, Stanchion on counterweight, Slewing warning lamp, Outrigger reaction force indication device All steel welded construction, 1 person, Rubber mounted, Tiltable (approx.15°), Air conditioner, Accessory socket (24V), USB socket (output 5V-2.4A.×2), Front windscreen wiper & washer, Roof window wiper & washer, Access step light, AM/FM Radio, Floor mat, Foot lamp, Power Window (external closing switch), Sun visor, Fire extinguisher t Boom dismount device, Slewing upper structure dismount device, Hydraulic oil cooler,	*Note: Destination	n areas w	Towing hook (front and rear, eye type), Discharge head lamp, Radio controller for outrigger control ts Air heater here radio controllers can be used are limited by the Radio Ac	
		Engine oil pressure warning device, Battery charge warning device, Coolant temperature warning device, Coolant temperature warning device, Hydraulic oil return filter warning device, Hydraulic oil emperature warning device, ACS outside indicator, Stanchion on boom, Stanchion on counterweight, Slewing warning lamp, Outrigger reaction force indication device All steel welded construction, 1 person, Rubber mounted, Tiltable (approx.15°), Air conditioner, Accessory socket (24V), USB socket (output 5V-2.4A×2), Front windscreen wiper & washer, Roof window wiper & washer, Access step light, AMFM Radio, Floor mat, Foot lamp, Power Window (external dosing switch), Sun visor, Fire extinguisher 1t Boom dismount device, Slewing upper structure dismount device, Hydraulic oil cooler, Working light (on table and cab), Working light for dismounting and setting, Searchlight, Winch view camera, PA system, Anemometer, Left side view camera,	*Note: Destination	n areas w	Towing hook (front and rear, eye type), Discharge head lamp, Radio controller for outrigger control ts Air heater here radio controllers can be used are limited by the Radio Ac	
● Operator's Standard		Engine oil pressure warning device, Battery charge warning device, Fuel level warning device, Coolant temperature warning device, Coolant temperature warning device, Coolant temperature warning device, Hydraulic oil ether filter warning device, Hydraulic oil ether filter warning device, Hydraulic oil ether filter warning device, ACS outside indicator, Stanchion on boom, Stanchion on counterweight, Slewing warning lamp, Outrigger reaction force indication device All steel welded construction, 1 person, Rubber mounted, Tiltable (approx.15°), Air conditioner, Accessory socket (24V), USB socket (output 5V-2.4A × 2), Front windscreen wiper & washer, Roof window wiper & washer, Access step light, AM/FM Radio, Floor mat, Foot lamp, Power Window (external closing switch), Sun visor, Fire extinguisher t Boom dismount device, Slewing upper structure dismount device, Hydraulic oil cooler, Working light (on table and cab), Working light for dismounting and setting, Searchlight, Winch view camera, PA system, Anemometer, Left side view camera, Pilot winch, Hook for 300 / 150 lon, Hook for 33 ton, Hook for 24 ton ,	*Note: Destination	n areas w	Towing hook (front and rear, eye type), Discharge head lamp, Radio controller for outrigger control ts Air heater here radio controllers can be used are limited by the Radio Ac	
● Standard	equipme	Engine oil pressure warning device, Battery charge warning device, Coolant temperature warning device, Coolant lemperature warning device, Hydraulic oil return filter warning device, Hydraulic oil enterperature warning device, Hydraulic oil return filter warning device, Hydraulic oil temperature warning device, ACS outside indicator, Stanchion on boom, Stanchion on counterweight, Slewing warning lamp, Outrigger reaction force indication device All steel welded construction, 1 person, Rubber mounted, Tilitable (approx.15°), Air conditioner, Accessory socket (24V), USB socket (output 5V-2.4A.×2), Front windscreen wiper & washer, Roof window wiper & washer, Access step light, AM/FM Radio, Floor mat, Foot lamp, Power Window (external closing switch), Sun visor, Fire extinguisher nt Boom dismount device, Slewing upper structure dismount device, Hydraulic oil cooler, Working light (on table and cab), Working light for dismounting and setting, Searchlight, Winch view camera, PA system, Anemometer, Left side view camera, Pillot winch, Hook for 300 / 150 ton, Hook for 83 ton, Hook for 24 ton , Hook for 12 ton with sub weight	*Note: Destination	n areas w	Towing hook (front and rear, eye type), Discharge head lamp, Radio controller for outrigger control ts Air heater here radio controllers can be used are limited by the Radio Ac	
	equipme	Engine oil pressure warning device, Battery charge warning device, Coolant temperature warning device, Coolant temperature warning device, Coolant temperature warning device, Hydraulic oil return filter warning device, Hydraulic oil temperature warning device, ACS outside indicator, Stanchion on boom, Stanchion on counterweight, Slewing warning lamp, Outrigger reaction force indication device All steel welded construction, 1 person, Rubber mounted, Tiltable (approx.15°), Air conditioner, Accessory socket (24V), USB socket (output 5V-2.44×2), Front windscreen wiper & washer, Roof window wiper & washer, Access step light, AM/FM Radio, Floor mat, Foot lamp, Power Window (external closing switch), Sun visor, Fire extinguisher nt Boom dismount device, Slewing upper structure dismount device, Hydraulic oil cooler, Working light (on table and cab), Working light for dismounting and setting, Searchlight, Winch view camera, PA system, Anemometer, Left side view camera, Plott winch, Hook for 300 / 150 ton, Hook for 83 ton, Hook for 24 ton , Hook for 12 ton with sub weight	*Note: Destination	n areas w	Towing hook (front and rear, eye type), Discharge head lamp, Radio controller for outrigger control ts Air heater here radio controllers can be used are limited by the Radio Ac	
• Standard	equipme	Engine oil pressure warning device, Battery charge warning device, Coolant temperature warning device, Coolant temperature warning device, Coolant temperature warning device, Coolant temperature warning device, Hydraulic oil return filter warning device, Hydraulic oil return filter warning device, Hydraulic oil emperature warning device, ACS outside indicator, Stanchion on boom, Stanchion on counterweight, Slewing warning lamp, Outrigger reaction force indication device All steel welded construction, 1 person, Rubber mounted, Tiltable (approx.15°), Air conditioner, Accessory socket (24V), USB socket (output 5V-2.4A × 2), Front windscreen wiper & washer, Roof window wiper & washer, Access step light, AMFM Radio, Floor mat, Foot lamp, Power Window (external dosing switch), Sun visor, Fire extinguisher **Tell Boom dismount device, Slewing upper structure dismount device, Hydraulic oil cooler, Working light (on table and cab), Working light for dismounting and setting, Searchlight, Winch view camera, PA system, Anemometer, Left side view camera, Pilot winch, Hook for 300 / 150 ton, Hook for 83 ton, Hook for 24 ton , Hook for 12 ton with sub weight **Tea table, Wire rope to dismount various things,	*Note: Destination	n areas w	Towing hook (front and rear, eye type), Discharge head lamp, Radio controller for outrigger control ts Air heater here radio controllers can be used are limited by the Radio Ac	
●Standard	equipme	Engine oil pressure warning device, Battery charge warning device, Coolant temperature warning device, Coolant temperature warning device, Coolant temperature warning device, Hydraulic oil return filter warning device, Hydraulic oil temperature warning device, ACS outside indicator, Stanchion on boom, Stanchion on counterweight, Slewing warning lamp, Outrigger reaction force indication device All steel welded construction, 1 person, Rubber mounted, Tiltable (approx.15°), Air conditioner, Accessory socket (24V), USB socket (output 5V-2.44×2), Front windscreen wiper & washer, Roof window wiper & washer, Access step light, AM/FM Radio, Floor mat, Foot lamp, Power Window (external closing switch), Sun visor, Fire extinguisher nt Boom dismount device, Slewing upper structure dismount device, Hydraulic oil cooler, Working light (on table and cab), Working light for dismounting and setting, Searchlight, Winch view camera, PA system, Anemometer, Left side view camera, Plott winch, Hook for 300 / 150 ton, Hook for 83 ton, Hook for 24 ton , Hook for 12 ton with sub weight	*Note: Destination	n areas w	Towing hook (front and rear, eye type), Discharge head lamp, Radio controller for outrigger control to the state of the st
